I write to recommend Cody Dalton, a former top student in my Advanced Server-Side Languages and Project Portfolio 3 courses at Full Sail University. During his time here, Cody displayed exceptional diligence, strong communication abilities, and a profound enthusiasm for his field.

Cody distinguished himself by consistently going above and beyond the required course deliverables. His dedication to excellence was evident in his refusal to settle for merely meeting expectations, opting instead to enhance every project with innovative solutions. His punctuality and thoroughness in assignment submissions further demonstrated his commitment to his studies.

Furthermore, Cody's communication skills stood out. He was adept at expressing his ideas clearly and engaging with both peers and instructors in constructive discussions. His passion for technology and its application in real-world scenarios was made quite evident during his time at Full Sail.

On a personal note, it became clear that Cody held a great deal of respect for my guidance. I now realize that he views me as a great mentor. I am honored to have played a pivotal role in his career development. His regard for my feedback not only highlights his ability to recognize and value leadership and expertise but also reflects his ability to learn and grow within this ever-changing field of technology.

In summary, Cody Dalton is a dedicated, capable individual with a bright future ahead of him. I wholeheartedly support his pursuits and recommend him for any opportunities he seeks to advance his career.

Sincerely,

Justin Workman
